

Capability Statement

Core Competencies

Excel Rehabilitation Services is able to help hospitals and outpatient clinics in their requirement for providing expedited Physical and Speech Therapy Services to their patients in a safe, comfortable environment, closer to their patients' homes.

Excel Rehabilitation Services (Excel Rehab) provides licensed therapists in an out-patient setting. We can see the patients in a timely manner, preventing delay between the need/request for services and the provision of the services. Compliance with therapy and recommendations is increased.

Expectations/Competencies:

- Wait time is significantly decreased for the patient
- Inconvenience and travel concerns are removed for the patient
- A welcoming and safe environment is provided
- Compliance with Authorizations is adhered
- Familiarity with VA/TriWest portal processes
- Effective communications with appropriate medical staff
- SW on staff to assist with needs/resources outside of Physical and Speech Services at no cost to the patient
